

The Athlete's Foot

The Athlete's Foot implemented a new chain-wide Intranet solution, in record time.

The Solution

Biko Technologies implemented the FranchiseShare Intranet solution.

Project milestones were met and the system was completely delivered and accepted by deadline.

The solution provides numerous features designed to streamline communications throughout the Athlete's Foot network including:

Fully searchable and searchable document libraries

Collaborative tools such as discussion forms and surveys

Contact lists, announcements, and group-wide events calendar functions designed to keep everyone informed what is happening

Franchise-specific functions for consolidating royalties and sales data and for disseminating inventory updates to all stores.

Ability for stores to place orders for supplies from The Athlete's Foot warehouse

Ability for franchise owners who own multiple stores with a single logon.

Project Overview

The Client

The Athlete's Foot

Industry

Retailer of sports, leisure and comfort footwear.

Location

Sydney and various locations in every state of Australia

The Mission

to implement a fully functioning Intranet system for the chain, meeting an aggressive project deadline and set of milestones

The Result

The Athlete's Foot launched the new Intranet at their summer conference in Sydney

Within a few days of going live, The Athlete's Foot stores were all successfully uploading their data sales and royalty information using the new Intranet
